

Article 4: What are Insert Pages

An Insert Page is an extra page with information you “insert” into your scriptures. Use Insert Pages to connect stories, articles, pictures or anything else you want to remember, to your scriptures. Here are several ideas on how to enhance your scripture study by using Insert Pages. Please refer to the end of this document for instructions on how to glue Insert Pages into your scriptures.

(Don't worry - it's not permanent!)

Anything can be an Insert Page!

If you can print something from your computer, or clip it out of a magazine or newspaper, you can insert it into your scriptures. Don't be afraid to be creative. There are so many things which relate to the scriptures in our everyday lives. Keep the words and pictures that have touched your soul in your scriptures - using Insert Pages.

EXAMPLES

Patriarchal Blessing. This is a great item to have in your scriptures. Keep the original in a safe place, but make a copy you can keep in your scriptures. There are several ways to get the correct size to put in your scriptures: a) Have a local copy center make a copy for you, b) Use your computer: scan the pages or take pictures of them and save the images on your computer, or c) type the words in a word processing program like Microsoft Word™. Then just print your blessing off in the correct size to fit in your scriptures. We suggest putting your Patriarchal Blessing in your scriptures between pages 76 & 77 in the Old Testament. The scriptural reference is Genesis 49:28. This is the story of Jacob blessing Joseph's sons, Ephraim and Manasseh.

The Family: A Proclamation To The World and *The Living Christ*

Both of these can be downloaded from www.lds.org, reduced in size and printed to put in your scriptures.

Insert in the Old Testament on page 376. (Ruth 1)

Insert in the Doctrine & Covenants on page 138. (DC 76:22)

Pre-printed Insert Pages. Bruce Barton has spent years creating the ultimate Insert Pages. He's done all the work for you! Start today with Insert Pages of maps, charts, quotes, histories, graphs, stories and much more for all the Standard Works.

ScriptureKIT™

ScriptureKIT Book 1 Information Pages (IP)

Over 120 pages to insert in your regular or large print scriptures as a ready-reference. The Information Pages give quick information in the form of charts, quotes, stories, histories and maps-all related to the scriptures. Book 1 is used with ScriptureKIT Book 2 “Cross Referencing System”. These pages can also be kept and used from the spiral-bound book they come in. Book 1 comes with instructions and a scripture marking secret.

Order online now at
www.brucebarton.com

ScriptureKIT Book 2 Cross Referencing System (MS)

A circular study system for the Standard Works using 50 Main Subjects which cross-reference everything from Angels to Zion. Keep all the information you've collected on one subject in one place in your scriptures. Pages can be kept in the book or put in your scriptures. Made to be used with ScriptureKIT Book 1 “Information Pages.”

How to glue Insert Pages into your scriptures

1. Decide how big you want your insert page to be (measure your scriptures - or just cut it the same size as ScriptureKIT book pages). It's helpful to have the top edge of the Insert Page just below the top verses so the page numbers and headings can still be seen. Make your Insert Page and cut it to fit your scriptures. Place the Insert Page in your scriptures as a test before you glue it, so you know where you want it.

2. Turn the Insert Page so the back is facing you. Put it on top of a piece of paper so the glue won't get on your table. On the edge that will go in the center of your scriptures, place 3 one-inch strips of **removable** glue - about 1/8" wide at the top, middle and bottom of the page. In Example 9, there are 2 types of removable glue shown. One is the yellow dispenser and the other is a glue stick of removable glue.

Example 9

Example 10

3. Spread your scriptures open and push the Insert Page evenly into the center of the binding. Remember, it's helpful to have the top edge of the Insert Page just below the top verses so the page numbers and headings can still be seen.

4. Run your fingers along the edge of the front of the Insert Page to secure it in place.

Click [here](#) to see a video on how to install pages into your scriptures. (The video describes installing ScriptureKIT Book 1, but it is the exact same for Insert Pages)

You're Done!

BE CAREFUL! The more Insert Pages you put in your scriptures the more they will "bow out." A few people have said they put in so many pages, it caused problems with the binding. We don't think this is a problem, and it hasn't happened to any of our scriptures. If you don't want to take this chance, don't use Insert Pages, but we think the reward is great. Another option is to have a printing company cut and rebind your scriptures.
